New England Roofing Company,

MANUFACTURERS OF

WARREN'S IMPROVED

Fire and Water Proof Composition Roofs

Office——7 Liberty Square, Boston.

THIS Company would respectfully solicit the attention of Builders, Architects, Manufacturers, and the Public, to this much approved system of Roofing, which has been very generally adopted in the cities of Buffalo, Cincinnati, Chicago, and St. Louis, and will at the present time in Boston and vicinity, were it has given entire satisfaction. It is rapidly superseding the use of all other kinds of Roof, and is confidently offered to the Public, as a mode of Roofing not subject unable in every important particular.

The materials employed are none of them subject to corrosion or rust, like the metals, nor will they expand and contract with the changes of temperature, like tin and iron, nor shrink in dry weather, and swell in damp, like shingles, and other wood coverings.

It combines in a greater degree than any other Fire Proof Roofing in use, the valuable requisites of cheapness, durability, and security against both fire and water.

These Roofs require an inclined as of not more than one inch to the foot, leaving it a good foundation for ornamental ade for drying purposes—and is of particular advantage in adjoining buildings in the event of fire.

They are afforded at a much less price than any other Fire Proof Roof. The amount of material saved, and which would be used for the old method is sufficient to insure the walls, and frame sufficient Roof, still further reduces the cost of the building.

Another advantage gained, is the securing of rooms in the Upper Story, of the same dimensions and quite as commodious, as those in the lower part of the building. The expense of a Three Story building, with the improvement, not being greater than that of a building of two stories with the pitched roof. There is a further saving in the cost of gutters.

These roofs do not be affected by the action of machinery—like those of Tin or Slate.

The Composition is so prepared that it cannot be forced by the extremes of heat or cold.

In case of injury from any cause whatever, no roof is so easily or quickly repaired.

Further information obtained by applying at either of the Company's Office.

SMOOTHING IRONS!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of man by machinery and other modern implements, but few males have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the evervexatious and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and dispatch—one cent's worth of dry fluid supplies fuel for a whole day's constant running. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

The Last Words of Luther Severance.

The Bangor Journal of Tuesday dons on a canting, sentimental attitude in regard to what it calls the last act of Luther Severance in going to the polls last September, and voting for Mr. Reed; and makes it the occasion of indulging in a long string of invectives upon the all get treachery of other prominent Whigs who have been and are acting with the Republican party. The editor closes his article as follows:

"Whatever may be the fate of the Whig party in this State, its history will record with his name, that of one Whig, faithful from its beginning, faithful through all, and faithful to the last. How few of his contemporaries now living, will have as much written of them to read to reflect. *Luther Severance* lives, as he has lived, a Whig."

We profess to know as much in regard to the principles which animated and guided the political life of Luther Severance, as any other man. I never was a Whig, in the broadest and truest sense of that term, but he was a Whig in *general principle*—not merely a *party* Whig. In clinging to the organization and the name, as we all did, so long as the party could resist as a National party, so long as there were living issues for it to battle as a Whig party, and so long as there was hope of effecting anything for principle by its means, in favor of the later measure of freedom and temperance which have arisen. But he was not of that class of inspecticals, men who would obstinately refuse to fight for principle in company with men of other party names and who would see their principles ingulfed rather than yield their own party name and organization. That he would for Isaac Reed last fall, is very probable—as many other Coalitionists did—simply because a general Whig Convention had been held and a candidate put in nomination; but we know that he approved entirely of the Coalition movement, as called for by the changed condition of parties, and the political exigencies of the times.

In proof of this it is only necessary to quote from the last *political* article that he ever wrote—published in the Kennebec Journal of Oct. 31, 1854—nearly three months *after* the Maine Law had been launched upon by the Bangor Journal. In that article Mr. Severance says:

"The compromise of 1850, as it was called, was the fugitive slave bill and the bill removing the legal obstructions to the admission of slave states, New Mexico and Utah. They were the bribes to have settled the question of slavery forever. This compromise was made the biggest plank in the platform of the democracy at Baltimore, in 1852. The whig convention also endorsed it—Mr. Pierce, the democratic candidate, announced that he should stand upon it; yet before two years had expired, we hear him making a further experiment on Northern sensibility, and exerting all the influence of his power and patronage, to remove statute restraints, by supporting the most faithless and wicked movement of the time, to get southern support for a re-election, by repealing the restriction upon slavery which had for thirty-three years kept it out of our vast territory westward and northward of the state of Missouri. If such a compromise as that is to be thus broken up, if democratic politicians will not even live true to one democratic caucus, is another *it is high time that Northern men should unite*, as the Free Soilers, Democrats, Know Nothings and Whigs somethings, have spoken in liberty bell, to trample in the dirt every northern doughface, who has yielded his vote to this iniquity, and then take care to make no more compromises on the question of slavery, but to return manfully to the policy of Washington, Franklin and Jefferson; of limiting, restricting, and finally abolishing slavery, instead of extending it over the continent."

To do this we must unite effectually with all who concur with us and we must do it without delay. It is a present exigency, more important at the moment than any other political question—Northern rights are nearly at stake, *although there are men in office who are trampling among them*—But it is not wise for Whigs to return to such self-righteousness, and require all concessions to be made by others. The democrats who voted against the Nebraska bill had more sacrifices than the whigs, as they had to work over their party predilections and systems—the ranks of proscription took out of party a third the patronage of the administration; *If they were truly tired of party, a race between party plans is elected for them every few years, as it is. Half sure, and then labored for two years, whenever the interests of slavery were supposed to require it, fell upon us with*, no matter which, so as the whole whig name, to resist such a capricious despotism. We should be among the last to favor *the division of parties*, arraying the North against the South, but in this matter we act on the defensive, we must yield continually ever thing to slavery or make a nice distinction and *effectual* resistance against the admission of half a dozen of thinly peopled slave states from the thinly regions of southern Missouri, each, like Florida, with two representatives on Congress, and *two senators*, to double the south hold political power and control it. Freedom both more must we yield to the admission of any slave State, coming on a ground covered by the Missouri compromise.

* * * *

I will add a word on the question of temperance, as connected with politics. Such a connection is now inevitable. After twenty years of continued effort by the advocates of moral suasion, it is seen that not enough can be found to make and sell rum, which they can make money by it, and the law allows it by license or otherwise. The question now is whether the law shall continue. As long as—Great numbers believe it should not. It is idle to tell such men they should not carry such a matter to the polls, that they must not mix it up with politics, &c. Every thing necessarily goes to the polls where legislation is required, and especially a matter of so much importance as this. We cannot, for instance, vote for the temperance candidate for Governor, and the Anti Nebraska candidate for Congress also, unless they are united in the same person.—Those who think both must have one ticket, or one they wants their suffrage. Both questions must be met, one way or the other. It is scarcely possible that any refusing man can vote in favor of a temperance man, while he is the intemperance question is the one which determines of humanity, the interests of the poor, and the peace and welfare of the community should uphold.

Fabrics and Clothing of every description with new expression. Dry goods made for men, not mad for partner. *New times will always be a sing up* and new to meet, with old ones and new kind clothes.

Some were Luther Severance's views of politics—expressed in almost a dying words. The writing of those sentiments was a most literally a "last act"—and it is evidence to the fullest extent the movement which has been made by the temperance and anti-slavery Whigs, for the formation, (with much from other parties,) of a new party, devoted to the casting out of these two living issues, and bringing into what he truly calls "cold and stable compound" It is a statement of fact in their true article of the Journal, and to all the exasperation, abuse and slang which that paper and its kindred hunker sheets are constantly throwing upon honest and sincere Republicans

Misrepresentations.—The Journal becomes daily more "intensified" in its opposition to the Maine Law. City Government—and in its zeal to bring odium upon the Mayor and officers who are faithfully striving to stop the reception and sale of liquors, it apparently forgets its assumed position as a paper which favors the execution of the Maine Law! It tells people they who, when drunks are intimated of its being really in favor of prohibition—and thereupon bawls lustily for the *full* execution of that statute But the moment the Marshal opens a box or a package supposed to contain liquor, and makes a misstep in so doing, (as sometimes he must, or when he proceeds by warrant from Judge Hodsdon, to open and search places where liquors are supposed to be deposited for illegal purposes, the Journal shouts, "Oppression!" "Outrage!" "Injustice!" "Burglary" and everything else in that line which happens to occur to it. We believe no intentional injustice or injury is done to any citizen by the officers executing the law—and if the Journal were really in favor of stopping the illegal introduction of liquor, it would be likely to have more charity for the motives and proceedings of those who do duty as it is to prevent it, and endeavor to get at those facts in the various cases which would show that the officers intended no injustice or oppression; rather than seek eagerly, as it does, for every circumstance out of which it can manufacture a plausible case, against them.

In regard to the cases of injury or "outrage" which have been specified by the Journal recently, we are authorized to say that the statements are in some instances entire fabrications, and in the others gross exaggerations of the truth. We are informed that no sofa has ever been injured, as asserted, by the Marshal or any of his assistants, for less damage than done to any other property at the steamboat wharf; as alleged. In relation to the "public outrage upon a citizen" on Sunday, it is stated that the young man was taken in charge from proper motives, and for good reasons, and by the special request of those having the best right to complain of outrage, if any had been committed.

The misrepresentations of the Journal, however, are made, as it is well known, for political effect, and will pass for what they are worth.

Man Drowned.—Our Oldtown correspondent writes us the following: At Milford, this morning, May 29, Mr Charles Eastman was drowned. He was engaged in rafting lumber at the mills. A stick of timber escaped from the raft which, and he ran out upon the breakwater with a pick-pole to catch it; but by some mishap he lost his balance and fell into the water. His brother was near, and running to his assistance, reached a pole to him, which he seized hold of, but from fright or some other cause soon relinquished his hold, and in a few moments was beyond the reach of human aid.

The Irving House, New York.—This hotel, which has been closed for some weeks past, was re-opened on Wednesday, on the European plan, having undergone considerable alteration, and quite elevation in the number of rooms. About thirty rooms have been cut off from the main portion of the building, leaving three hundred in use as the limit. These are let by the day, separately, without meals and the prices range from fifty cents to five dollars a day, according to size and location. Meals are provided to order.

The Boston papers very badly sold by that "Know Nothing" despatch from Augusta, the other day. The *Post* says:

The K N grand Council met at Augusta, Me., on Wednesday, and nominated Samuel C. Gage for governor, after several ballotings, and much heated discussions that the friends of Governor Morrill withdrew. This sets the "ball" by the ears, and *will hasten the triumph of the democracy.*

Very agreeable to Know Nothingism, it would be, doubtless

The *Courier* thus commences upon it:

Samuel C Gage, of Augusta, a new man in politics, has, it is said, been nominated for governor by the Know Nothings of Maine, at a meeting of 1000 delegates. He Ellsworth party is in the ascendant.

The *Advertiser* has the following paragraph

The "Order" split in Maine. The K.N Grand Council met at Bangor on the 23d. The election was tempestuous. Hon S. C. Gage, of Augusta, received the nomination for Governor.

Capt. Poor of the State of Maine, was also badly sold.

Sale of Land in the Suburbs.—R. S Prescott auctioneer, sold a lot of three and a half acres of land on Avenue road, yesterday at auction, at $30 per acre. Also a lot of three and one-half acres on corner of Avenue road and Hudson st, at $69 per acre. Wm F Hall, Esq., was the purchaser of both parcels

Natural born foreigners, to entitle themselves to the right of voting in the ensuing State election, must exhibit their naturalization papers to the ward committee of the city, the selectmen of the town, or the assessors of the plantation where they may reside, on or before the 10th day of June—in accordance with a law of the last Legislature.

Veloppia Election.—*Washington*, May 23d. The returns of official and reported majorities in 121 counties, foot up as follows: Wise 19,-932; Flournoy 17,646; majority for Wise 2286. There are yet 15 counties to be heard from, which gave Pierce 1150 majority.

It is quite fashionable now in Albany for pleasure parties to charter some small steamboat, and take a short excursion, for fresh air and exercise before breakfast. A steamer is always ready to fire up every pleasant morning at a rate only a little higher than the price of a horse and buggy.

Fort Scott, Fort Scott, in Kansas Territory, with all the fixtures, was sold lately for $5000—It cost the United States government, not long since, the handsome amount of $175,000 This is what a horse jockey would call a d—l of a discount.

La Belle Canadienne. This is the name to be given to a clipper schooner of about 200 tons, old measurement, which is now building in Quebec as the beginning of a Canadian navy. The Montreal Gazette speaks of her as finely modeled, and mentions that the builder offers to stake £500 on her speed in a contest with the famous yacht *America*. To save room her ballast of iron is inserted between the ribs and outer planking.

Mr. Jones, after having spent an evening over his bowl, went home a little "how came you so" He went to bed, and after a moment's consideration, he thought it would be safer to turn over, lest his breath should betray him, when Mrs Jones opened her eyes, and in the mildest manner possible said "Jones, you needn't turn over, you're drunk clear through."

Fortitude

The brightest hopes the earth can breed,
Are always last to fade away;
The loveliest things are first to perish,
And life itself is but decay.

Still suffering tries the human soul,
While patient firmness hopes release,
And urges to a heavenly goal,
Where nothing is but endless peace

Then faint not on the thorny road
While many a weary foot hath trod,
It leads them to a blest abode,
It leads them to thy Father, God.

The installation of Rev George DeHorest Polsom over the Christ church (Congregational) on the Hill of this city, this week, fully proves the earnest efforts of that society to give fresh vigor and attraction to their Protestant rite, and make it more worthy of the city and the cause it represents. The services of installation were interesting and impressive—the sermon worthy of its able author, Rev Joseph P Thompson of New York, editor of the "Independent." The improvements upon the church edifice are in admirable taste. The beauty of the interior is not equalled by that of any other in the city. The new pastor finds a very interesting valuable field of labor before him, and gives promise of gaining equal to its demands.—*Springfield (Mass.) Republican*

Good News from Texas. Late dates from Texas give the gratifying intelligence that the long drouth has ended. The Austin State Gazette of the 11th inst., mentions plentiful rains, and expresses the feeling that "our harvest of cotton as well as corn, will surpass that of any of our sister States."

Rats Run you Always Root.—There was towed into our harbor from Boston on Friday, a hell buoy to be stationed on Alden's Rock, near Cape Elizabeth. The buoy is constructed of sheet iron, made hollow, is about twenty feet long by twelve wide, and as it floats upon the surface of the water bears a resemblance to the form of a turtle, a shape which measurably shields it from the effects of the waves. In the center of construction rest twelve feet high, and securely braced. This supports a bell, which is stationary and provided with four clappers, so that as it rises upon the slightest pitch or roll of the buoy. It is to be secured in a position by two anchors. Alden's Rock is regarded by our mariners as one of the most dangerous ones on the coast, and the buoy is calculated to confer a very desirable measure of security to all who would ere have an interest in our numerous steamboats and coasters. It was made by W. Williams of Charlestown.—*Portland Adviser.*

A Fish Story.—A species of shell, found in Tranquebar, on the Coromandel Coast, East-Indies, is said, not only creeps on shore but actually climbs up tall fan palms, upon unit of certain shell fish, which forms its favorite food Covered with sword shine, he glides smoothly over the rough bark, spines, which to may strength and fruitfulness will serve him like hands to hang by, and with the aid of his fins and a powerful tail, he passes himself upward, thus completing the strange picture, of fish and shell with dwelling high on lofty trees.

The Crops.—Accounts from Michigan and Ohio represent the wheat as promising. The trying period is between the present writing and the 10th of June. When the wheat stalks branch out, which is about the first of June, there is danger from the fly, and that danger is not considered entirely past until ten days thereafter. A much greater area has been planted with grain than ever before, and there is hope for all.

For the Daily Whig and Courier

Letter from Aroostook.—The Bangor Journal and its Correspondents.

Messrs. Wheeler & Lynde: It is amusing to follow the course of the Bangor Journal upon the Maine Law question. It dodges hourly to the temperance movements, and still its editorials are evidently written in a spirit of opposition to the Maine Law. Although I have been a Whig all through life, I must say that I, with many other of its subscribers, detest the course that paper has taken since its establishment. It is evidently of the Wild Cat stamp, and is verging towards a coalition with that party. Even some of its correspondents are well-known Democrats.

A correspondent who writes over the signature of "Forest Ranger," shows his hostility to the present State Administration and his abhorrence of the Maine Law, in many of his communications. By the way, I have had the pleasure of seeing this veritable correspondent, and who do you think it is? Why, it is the famous Neal Buntline, who is in this county lecturing in favor of the American party and against the present State Administration, and stirring to utter pitch the opposition to the Maine Law and the State Government.

Now, Mr. Editor, if the Bangor Journal expects to regenerate the old Whig party in this State by employing such correspondents, it will have to resort to something at longer than small beer, and then fail in the attempt. They have striven to scandalize some of the most prominent of the old Whigs of our State, men whose character is unimpeachable. Every subscriber to that paper who is a lover of good order, temperance and reform, should discountenance such proceedings.

The Maine Law has been a blessing to our State. In the whole valley of the Aroostook there is not a rum shop within my knowledge, and in fact there is very little said in the county of Aroostook. Even in Houlton, what is said is disposed of in a very secret manner, although that has been one of the worst places in the State in that respect. If the friends of the law will but enforce it, I believe they will rid the State of the evil. Yours truly,

In Bos on the Saturday, in Circuit Court, Rufus B. Allyn, of Belfast, had in pocket-packet of a pocket book containing $774 in bank bills, which he said just drawn from the bank. The deed was committed by a man named John Mann, who was discovered in the act by a bystander, who informed an officer, when the fellow was arrested, and the money recovered. Mann, who is about 25 years old, was taken before the Police Court on Monday, and held for trial in the Municipal Court in the sum of $1000

To Keep Lettuce.—If the tops of lettuce be cut off when it is becoming to old for use it will grow up again fresh and tender, and may thus be kept good through the summer.

Insects.—Inspect your fences frequently, and see if they are secure, and in a condition to afford protection to your crops Good fences are very desirable on a farm, and save not a little trouble to the owner.

Grease for Wheels.—Fifty parts, by weight, of pulverized black lead—very fine,—fifty of clean hog's lard—fifty of soft soap, and five of quick silver. Rub the lard and mercury first together, then the lead and soap. This is the best composition that can be applied to axle-trees.

Planting Potato Peelings.—We have recently been attracted by an article in the "Soil of the South," to the following effect.—A negro boy was sent to empty some potato peelings in the piggery, but before doing so he selected all the eyes, and planted them in the fence corner, and had near a bushel of potatoes, larger and better than those of his master raised from whole potatoes and with "guanne." On mentioning the subject to an Englishman, he assures us that whole potatoes were never planted in the district from which he emigrated—not any but the eyes. These were cut off the tuber, with more of the potato, however, than is usually taken off with the peelings, and planted in highly manured and well prepared soil and large crops of the very best of potatoes are the results. The remainder of the potato is prepared for the table.—*Indiana Farmer.*

DR. J. H. SCHENCK'S PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself, some years ago, reduced so low as to be given up by the physicians and friends, in the last stages of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from wild Indian receipt, which immediately entered into him. The family physicians and a large number of respectable gentlemen certified to the facts of this, also, and so the Pulmonic Syrup obtained a reputation never equalled in this section of the country. Creating, as it certainly did, a sensation second to that produced by Dr. Schenck's celebrated operation by mercurial alterative medicine by all men against the system with the same heroical results as fatal, men was the notoriety of this medicine that remained to arrest and their attention drawn toward it by strong reputation of it, from having witnessed its extraordinary powers, and freely extended the hand of friendship and encouragement to Dr. Schenck and moulded the medicine to be published, and used it in their daily practice

No other medicine can rest upon the steps in the manner that this Pulmonic Syrup does. It produces a healthy action upon the morbid parts, by purifying them from disease, it promotes the expectoration, allays the cough, opens the matter on the lungs, and when it is ripe, it helps it to be open, aids the healing of the tubercles so as ever to prevent and the lungs become sound and regain the performance of their natural functions. It also nourishes the inflamed portion of the lungs and other organs, and it restores these parts to health. A supe for proper the medicine possessed over all others is, that it contains no opium, calomel or any other dangerous medicine

In 1841 Dr Schenck removed from Pennington Way Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation unrivalled by none, in curing a diseased habit of body that is deemed incurable, and he has since been daily presented to the world as incontestible evidence of his success

Both of his parents died with Consumption, which appears to have been an hereditary disease with his late wife's family. All his brothers and sisters except one, died early of this disease, most of them, but in one brother, reaching the age of twenty.

Thus left nearly the last of his family, he naturally felt some alarm, as one after another was consigned to the silent tomb by this fell destroyer

VOLUNTARY TESTIMONY

We, the subscribers, residents of Pennington, do hereby certify that we are well acquainted with D J H Schenck. He was attended by several physicians, which, as we believe, terminated in Pulmonary Consumption, under the treatment of which he was reduced to so low a state that he was confined to his bed for a long time and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him and we feel pleasure in declaring at our belief that these salutary effects have resulted from the use of the Pulmonic Syrup.

IMPORTANT PROCLAMATION!

A Great Mystery Explained.

In the year of our Lord 1847, in our researches of analytical chemistry, we discovered that by mixing certain vegetable agents, which had never before been used in medicine, we obtained properties possessing such a miraculous touch power over pain, that the moment it was applied to the part affected with pain, all uneasiness ceased. The inventor was so overjoyed in an instant, and the found out it spasms and irritations were soothed and the system restored to perfect ease in a few minutes

In 1849 we introduced this Remedy to the world under the name of

RADWAY'S READY RELIEF

It has been used by hundreds of thousands throughout the United States during which time to all troubled with Pain or its causes

One application externally, or a few drops taken internally, will instantly free the sufferer from the most violent and terrible pangs, and restore the weak, feeble, and prostrated frame to strength and vigor

No person has ever used RADWAY'S READY RELIEF with not having some special benefit in less than fifteen minutes after use

Let those who are now suffering my severe pains give it a trial, for fifteen minutes they will enjoy ease and comfort

RADWAY'S READY RELIEF

was the first and only pain remedy ever discovered that will stop the most excruciating pains in a few seconds, and free the system from Rheumatism, Neuralgia, Sciatica, and Mercurial Disorders in a few hours. It will cure and protect the system against sudden attacks of

CHOLERA,	DYSENTERY,
DIARRHŒA,	CHOLERA MORBUS,
BILIOUS CHOLIC,	HEART AND ACHE,
INFLAMMATION,	INFLUENZA

Bear in mind, it is a powerful Disinfectant, and acts, diffusive stimulant, nervine, quieting and counter irritant.

THE RADWAY PILLS are mildest discoveries of the present century. They are purgative laxative nervous and general tonic, and will purge, cleanse, regulate, purify, and prove of the human system speedily, and prove of the human system speedily sickness or any sudden attacks. The doses required to be taken are small A few drops of RADWAY RELIEF in excessive objectionable influence over diseased action

IT HAS CURED

Rheumatism in four hours,
Neuralgia in one hour,
Cramp in ten minutes,
Diarrhœa in fifteen minutes,
Toothache in one second,
Spasms in ten minutes,
Sick Headache in fifteen minutes,
Chill in fifteen minutes,
Chilblains in one minute,
Sore throat in five minutes,
Influenza, in one hour.

SPINAL COMPLAINTS, Stiff Joints Cuts Bruises, Wounds, Fever Sores Cholera Morbus Dysentery Pain in the Side, and all other complaints where there are active pains, RADWAY'S READY RELIEF will instantly stop the pain, and quickly cure the disease

For the remarkable efficacy of RADWAY'S discovery, see Advertisement and the complaints cured by Radway's Renovating Remedy, see in next week's papers

CATHARTIC PILLS

OPERATE by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action. They remove the obstructions of the stomach bowels, liver and other organs of the body, and, by restoring their regular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professors, Physicians, and Patients, has shown cures of such hopeless diseases almost beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named are pleased to furnish gratis to all inquiring.

Annexed we give *Directions* for their use in the complaints which they have been found to cure

FOR COSTIVENESS.—Take one or two Pills, by such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of Piles, and the cure of one complaint is the cure of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPEPSIA, which is so often times the cause of *Costiveness*, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach and liver into healthy action. They will do it, and the *heartburn, bodyburn*, and *soulburn* of dyspepsia will rapidly disappear. When it has gone, don't forget what cured you

For a Foul Stomach, or *Worm d Junctions of the Bowels*, which produces general depression of the spirits and bad health, take from four to eight Pills at bed, and smaller doses afterwards, until activity and strength is restored to the system

FOR NERVOUSNESS, SICK HEADACHE, NAUSEA, *Pain in the Stomach, Back or Side*, take from four to eight pills on going to bed. If they do not operate sufficiently, take more the next day until they do. These complaints will be swept out from the system. Don't waste these and their kindred disorders because your stomach is foul

FOR SCROFULA, ERYSIPELAS, *and all Diseases of the Skin*, take the Pills freely and frequently, to keep the bowels open. The eruptions will generally soon begin to diminish and disappear. Many dreadful ulcers and sores have been healed up by the purging and purifying effect of these Pills, and some disgusting diseases which seemed to saturate the whole system have completely yielded to their influence, leaving the sufferer in perfect health

Patients! your duty to society is plain—you should parade yourself around the world covered with pimples, blotches, ulcers, sores, and all or any of the multitude diseases of the skin, because your system wants cleansing

To PURIFY THE BLOOD, they are the best medicine ever discovered. They should be taken freely and frequently, and the impurities which sow the seeds of innumerable diseases will be swept out of the system like chaff before the wind. By thus purifying they do as much good in preventing sickness as by the remarkable cures which they are making every where

LIVER COMPLAINT, JAUNDICE, *and all Bilious Affections* arise from some deranged action—either torpidity, congestion, or obstructions of the liver—torpidity and congestion create the bile and hinder it unfit for digestion. This is disastrous to the health, and the constitution is *speedily* undermined by no other cause. Indigestion is the symptom. Obstruction of the ducts which empties the bile into the stomach causes the bile to overflow into the blood. This produces Jaundice, with a long and dangerous train of evils. Costiveness or alternately costiveness and diarrhœa, prevail. Feverish symptoms, languor, low spirits, weariness, restlessness, and melancholy, with sometimes inability to sleep, and sometimes great drowsiness sometimes Chronic weakness in the limbs, the hands and the whites of the eyes become a greenish yellow, the stomach and, the bowels sore to the touch, the whole system irritable, with a tendency to fever, which may turn to bilious fever, bilious colic, bilious diarrhœa, dysentery, &c. A medium dose of three or four Pills taken at night, followed by two or three in the morning, and repeated a few days, will remove the cause of all these troubles. It is wicked to suffer such pains when you can cure them for 25 cents.

RHEUMATISM, GOUT, *and all Inflammatory Rheumatism* are usually cured by the purifying effects of these Pills upon the blood and the stimulus which they afford to the vital principle of Life. For these and all kindred complaints they should be taken in mild doses, to move the bowels gently, but freely.

As a DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed.

TESTIMONY FROM MAINE

Capt David Hoole, rockland, Maine, July 16, 1855 says "I was taken sick one year ago last April, upon my passage from Havana to Charleston. As the last report I took made me sicker and prostrated my whole system, but the first dose I took seemed to do me more good than all the medicine and nursing up a new spirit having seen advertisement of Hoofland's German Bitters in the Courier, immediately. This was at 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West Indies ever since. I have now given up going to sea and resolve on this shore where you can find me and engage, as you could sell large quantity of it."

Joel B Hall & Co, Presque Isle, Aroostook Co., Maine, April 24, 1855, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Joel B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased one bottle. She had taken at but a few days when she began to improve, and now, after taking only one bottle, she is enjoying better health than she has for years—She has no pain in her side or at any part of her body, and attributes her cure entirely to the German Bitters WILLIAM CLARK

Salmon Brook, Aroostook Co., Me

You should bear in mind that these Bitters are entirely vegetable, thereby possessing advantages over most of the preparations recommended for similar diseases.
